Education

Norwegian University of Science and Technology (NTNU) *Aug 2021 - Jul 2027*
M.Sc Computer Science and M.Sc Applied Mathematics & Physics Trondheim, Norway

Tsinghua University *Sep 2025 - Jul 2026*
Institute of Interdisciplinary Information Sciences (Yao Class), AI, Statistics and Quantum Beijing, China

Work Experience

Norges Bank Investment Management *Jun 2026 – Aug 2026*
Applied AI Engineer - Summer Intern

- Built and shipped an AI agent to explain daily net asset value deviations for a fund with $2.2 trillion in AUM
- Designed self-improvement loop that compares agent and analyst output to suggest improvements
- Developed custom tools and integrations (MCP) connecting the agent to internal data systems and workflows

Microsoft *Jun 2025 – Sep 2025*
Software Engineer - Summer Intern

- Developed a server for collecting and processing traces from Geneva Monitoring within M365 Core
- Implemented an OpenTelemetry pipeline to export telemetry to dashboards for real-time visibility and analysis
- Collaborated with M365 Core engineers to optimize accessibility and workflow of telemetry tooling

A* Consulting *Mar 2024 – Dec 2024*
Technical officer/Co-founder

- Led delivery of a contract for a major Norwegian construction company valued at $10K+
- Developed a RAG-based system using LangChain and LangGraph to enable interaction with enterprise data
- Secured 3 paying customers within the first month of starting, contributing to $5K+ in revenue

NorwAI - Norwegian Research Center for AI Innovation *Jul 2023 – Jan 2025*
AI Research Assistant - Part time/summer intern

- Optimized a data-processing pipeline from over one hour to less than 30 seconds
- Conducted experiments for anomaly detection methods on Norway's largest academic computing cluster
- Developed a full stack website for searching the NorGPT dataset with OpenSearch, Next.js and React

Favn Software *Feb 2022 – Mar 2024*
Software Engineer - Part time

- Implemented a scalable pipeline for internally generated data into Google Cloud, for operational monitoring
- Assisted in planning and writing proposals, resulting in over $125K in research grants and consulting contracts

Extracurricular Activity

Chief Investment Officer *Oct 2023 – Present*
Høiskolens Chemikerforening (HC)

- Founded and managed endowment with an original value of more than $20K

Project lead *Feb 2022 – Jun 2025*
Cogito NTNU - Biggest AI student organisation in Norway

- Conducted workshops and led a group of 4–5 students each semester for different AI projects

Honors and awards

Selected | NORAM / American-Scandinavian Foundation Fellowship, $20K for US graduate study *May 2026*
Participant | Quantitative Trading Camp with Jane Street in London *Apr 2025*
Finalist | HackMIT 2023 *Sep 2023*
3rd place | Hackathon with NASA JPL, hosted by Start NTNU *Feb 2022*

Skills

Languages: Python, C/C++, C#, Go, SQL, Java, Swift
Frameworks: TensorFlow, PyTorch, Next.js, pandas, OpenSearch, Firebase, LangChain, LangGraph, Braintrust
Cloud & AI: Azure, Google Cloud Platform, AWS, OpenAI, Anthropic, Gemini, Snowflake
